

⚠️ Urgent Maternal Warning Signs

Pregnant or gave birth within the last year?

If you have any of these urgent warning signs,
call 9-1-1 or go to the nearest Emergency Room/OB Triage!

Headache that won't go away or gets worse over time, with or without vision changes

Trouble breathing

Baby's movements stop or slow down

Seizures

Vaginal bleeding or fluid leaking during pregnancy

Severe belly pain that doesn't go away

Thoughts about hurting yourself or your baby

When you get to the Emergency Room/OB Triage, tell them:

Your name

You are pregnant or had a cesarean or vaginal delivery on (date)

Who your OB Provider is and where you delivered

The warning sign you are experiencing

Call your OB Provider and say you need to **be seen today** if you have any of these urgent maternal warning signs:

Fever

Extreme swelling of your hands or face

Leg pain, swelling or redness in your leg

Chest pain or fast-beating heart

Severe nausea and throwing up (not like morning sickness)

Dizziness or fainting

Overwhelming tiredness

Changes in your vision

Heavy vaginal bleeding (more than your period) after you give birth

When you reach the office or your OB Provider, tell them:

- Your name
- You are pregnant OR had a cesarean or vaginal delivery on (date)
- The warning sign you are experiencing and that you need to see/speak to your provider **today**

If you cannot reach your OB Provider, go to the emergency room/OB Triage!
